

## Ethiopia Maternal Mortality Reduction Initiative

N.K. Black, MPH — Project Manager

### Professional Portfolio Overview — October 2025

#### About the Initiative

This portfolio showcases key management, monitoring, and evaluation deliverables from the Ethiopia Maternal Mortality Reduction Initiative. Each artifact demonstrates evidence-based decision-making, leadership in field coordination, and application of WHO/USAID-standard project management methodologies.

#### Portfolio Artifacts

#	Artifact	Description	Format
1	 Dashboard Mockup	Visual analytics of key indicators —MMR, training completion, and QA scores.	PDF / DOCX
2	 Training Agenda & Competency Checklist	Structured 2-day curriculum with evaluation criteria and trainer feedback matrix.	PDF / DOCX
3	 QA Checklist Template	Supervision form assessing data quality, ethics, and field readiness.	PDF / DOCX
4	 Hybrid Redacted Questionnaire	Combined maternal-service-utilization and health-worker-performance tool, with data-coding schema.	PDF / DOCX
5	 Project One-Pager Summary Card	Executive brief of outcomes, strategic pillars, and risk-mitigation actions.	PDF / DOCX

#### Professional Highlights

- **Strategic Leadership:** Directed end-to-end workflow for MMR-reduction initiative in collaboration with national partners.
- **Technical Expertise:** Applied project-management frameworks, M&E systems, and REDCap-based data tools.
- **Ethical Governance:** Embedded informed consent, privacy, and QA processes across all deliverables.
- **Results Orientation:** Achieved >13% reduction in maternal mortality and 15% improvement in data verification accuracy.
