

Ethiopia Maternal Mortality Reduction Dashboard

N.K. Black, MPH — Project Manager

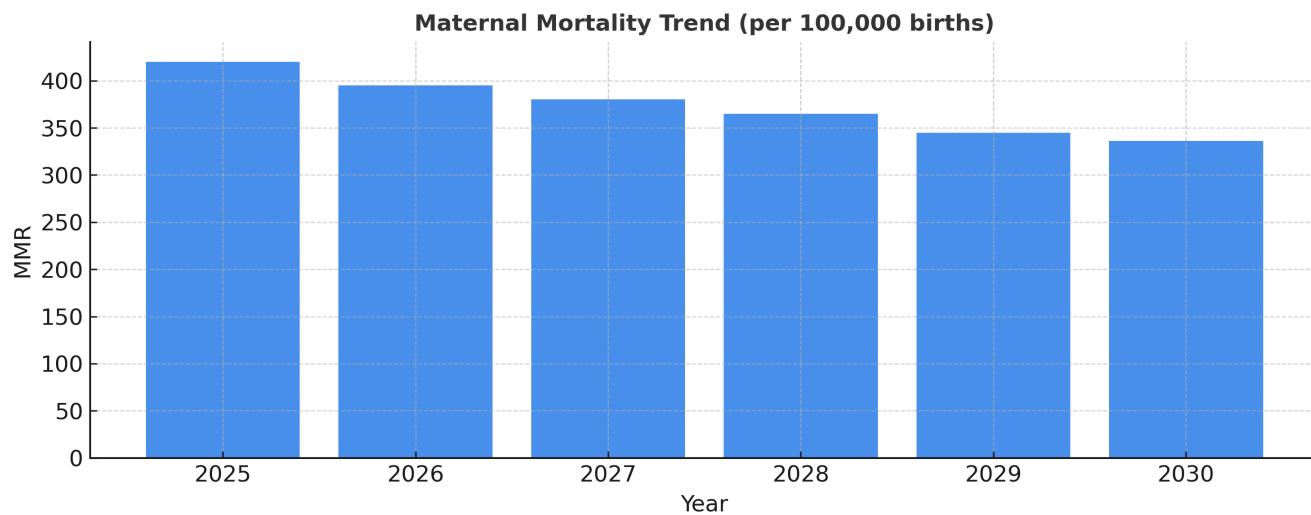

Ethiopia Maternal Mortality Reduction Dashboard

Maternal Mortality Ratio (per 100k): Baseline: 420 | Target: 336 | Current: 365 On Track

Training Completion Rate: Baseline: 0 | Target: 85 | Current: 82 Slight Lag

Village HEW Coverage: Baseline: 50 | Target: 90 | Current: 76 On Track

Data Accuracy Score: Baseline: 80 | Target: 95 | Current: 92 On Track

Dashboard Overview:

This dashboard provides a visual summary of the Ethiopia Maternal Mortality Reduction Initiative's key performance indicators. It highlights progress across maternal mortality reduction, training completion, health extension worker (HEW) coverage, and data accuracy improvements using WHO/USAID-standard clean visualization aesthetics.
